

RESIDENTIAL SERVICES

RESTORING MORE THAN PROPERTY

Next to your family and loved ones, nothing is as important as your home. Damage from fire, water, wind or mold can be frustrating, inconvenient and emotionally difficult.

More than ever, you need a name you can trust with an organization that sets the standard in the industry for quality and response.

WHY BELFOR?

- Worldwide leader in restoration and reconstruction services.
- Over 70 years of experience - single and multi-unit housing.
- Numerous industry awards for innovative construction techniques, historic renovations and remodeling.
- Leader in drying and dehumidification of structures damaged by water.
- Leader in restoration technologies for cleaning electronics and paper documents.
- Industry leader in mold remediation and other environmental issues.

BELFOR DIFFERENCE

If you have ever encountered property damage from fire, water or wind, you will appreciate the BELFOR difference. With more than one-half million successful restoration projects under our belt, we understand your concerns and expectations. We work closely with your insurance company. We present the options. We keep you apprised of the details. We let you make the decisions. We deliver on our promise – that's the difference.
