

# OUR DISINFECTION SERVICE

## IN BRIEF

We have decades of experience - not only in all aspects of fire and water damage, but also in disinfection and decontamination projects. Be it contamination caused by fire, water, storms, mould, hazardous goods accidents or infectious material.

**Do you want to provide re-assurance for your employees and customers? We can support you with this task.**

**We protect you and ourselves:** The protection of our employees and customers is our top priority - risk assessments ensure appropriate security measures at all times.

**We disinfect comprehensively:** We treat all directly and indirectly accessible surfaces including electronics, machines and HVAC systems. This reduces the risk of infection and prevents the unintentional transmission of pathogens to objects (cross-contamination).

**We disinfect effectively and gently:** With a combination of methods for disinfecting biologically hazardous contamination, we can provide a complete disinfection solution. With our own BELFOR disinfectants, neither infectious material nor harmful residues are left behind.

**We minimise interruption:** Whether it be schools, communities, office buildings, industry or production facilities - can help keep business and organisations moving

**We help you quickly and competently:** our specialist BELFOR decontamination and disinfection teams are there for you around the clock.
